

## TELESCOPIC DOORSET | P7401

The Portman telescopic doorset effectively allows two door leaves to be concealed within one wall (on the same side) and almost a double span to be traversed.

The door leaves are linked via a toothed belt and pulley system so as the user extracts the first door leaf the second is gently brought along with it and conversely the opposite happens when the doors are concealed back within the wall. The doorset is non handed and timber framing is supplied offset, as only one leaf makes contact with the closing jamb. Due to the location of the door top components, self closing, soft close and touch latches are not suitable for use with telescopic kits. For aesthetics it is worth considering having a return on the second door leaf to conceal the gap when both doors are in the closed position. For further guidance please contact the sales office.

For doors over 2400mm high the use of the P5700 reinforcing kit is recommended.

## SINGLE DOOR

(max. door thickness 44mm)

### To calculate studwork width and height from known door dimensions:

Studwork width (W) = 3 x Door width (WP)  
+ 7mm

Studwork height (H) = Door height (HP)  
+ 85mm

### To calculate door size from known studwork dimensions:

Door width (WP) = Studwork width (W)  
- 7mm / 3

Door height (HP) = Studwork height (H)  
- 85mm

### Door size opening dimensions:

Door width (WP) = Door opening width (OP)  
+ 58mm / 2

Door height (HP) = Door opening height (OH)  
+ 4mm

### To calculate door opening width and height from known door dimensions:

Door opening width (OP) = 2 x Door width (WP)  
- 58mm

Door opening height (OH) = Door height (HP)  
- 4mm

## KITS

### Standard height (up to 2100mm)

Standard width door leaf

P7400 SD 626–926mm wide

P7401 SD Inclusive of timber door linings

Intermediate width door leaf

P7400 ID 927–1300mm wide

P7401 ID Inclusive of timber door linings

### Tall height (up to 2700mm)

Tall door leaf

P7400 TD 626–926mm wide

P7401 TD Inclusive of timber door linings

Tall/intermediate width door leaf

P7400 ITD 927–1300mm wide

P7401 ITD Inclusive of timber door linings

## DOUBLE DOORS

For double door applications please contact sales office.

## + COMPATIBLE ACCESSORIES

- Architectural flush pulls
- Pop out pull handle
- Leading edge pull
- Wall reinforcing kit

## ▢ STANDARD DOOR LEAVES

- Flush
- 2 Panel shadow gap
- 4 Panel recessed
- 4 Panel shaker
- Vertical boarded door
- Glazed door
